

WFNS2022 | SCIENTIFIC PROGRAM

16/03/2022

07:00 - 10:10 NEUROSURGICAL ANATOMY SYMPOSIUM

Room D

Moderators: *Benes, Vladimir*
Mejia Cordovez, Juan Armando

- 7:00 - 07:15 The trochlear nerve: neurosurgical considerations in different microsurgical approaches
Enrique Úrculo (Spain)
- 7:15 - 07:30 The Transcallosal Approach to Pineal Region Lesions
Kresimir Rotim (Croatia)
- 7:30 - 07:45 Anatomical Variations of Intracavernous Carotid Artery
Victor Hugo Pérez Pérez (Mexico)
- 7:45 - 08:00 Pterional Approach and Variations
Sanjeeva Jeyaretna (United Kingdom)
- 8:00 - 08:15 The Minimally Invasive Posterolateral Transcavernous-Transtentorial Approach in Posterior Circulation
Jorge Mura (Chile)
- 8:15 - 08:30 Surgical approach to tuberculum-planum meningiomas
Roy Daniel (Switzerland)
- 8:30 - 08:45 Supra-orbital approach for meningiomas and pituitary tumors
Aaron Musara (Zimbabwe)
- 8:45 - 09:00 Minimally invasive approaches to the pineal region
Michael Sughrue (Australia)
- 9:00 - 09:15 Surgical approach to Intraventricular Tumor
Ekkehard Kasper (Canada)
- 9:15 - 09:30 Supracerebellar-Infratentorial Approach to the Petrous Apex lesions
Vladimir Benes (Czech Republic)
- 9:30 - 09:45 Brain-stem Anatomy and Selection of Surgical Approach
Miguel Angel Arráez Sánchez (Spain)
- 9:45 - 10:00 Merits of simple approach in skull base surgery
Imad Kanaan (Jordan)
- 10:00 - 10:10 Final Remarks
Vladimir Benes (Czech Republic)
- 10:00 - 10:10 Final Remarks
Imad Kanaan (Jordan)
